Experience

Labglo Technologies - Senior Frontend Developer
Aug 2022-present

- **Architected** and implemented a flexible roles and permissions system to an application, **reducing client change requests by 40%** and eliminating the need for frequent code updates
- Utilized various optimization techniques in React to enhance application performance. Successfully optimized API calls, resulting in a **40% reduction** in page load times
- Mentored a team of junior developers, **researched, architected**, and **developed** a complex HR management platform, similar to **Zoho People** and **Zoho Payroll**, now serving **2000+ employees** across multiple client businesses and locations.
- Documented major features, **POCs**, and key projects for clear understanding and easy maintenance. Provided valuable resources for team collaboration, QA testing, and future development
- Implemented **agile** practices like regular code reviews and end-to-end testing, and improved our deployment process, which led to 60% fewer bugs in new releases and better overall code quality

Freelance Web Developer - Full Stack Developer
Feb 2022-Aug 2022

- Revamped a client's web application with a **new design**, significantly enhancing **client satisfaction.**
- Developed reusable React.js components, reducing development time for future and improving overall code consistency
- Created a full-stack application using **React, Node.js, Express,** and **MongoDB, deployed on AWS**, which gained knowledge and confidence to build an application end-to-end.
- Successfully delivered projects under **NDA**, demonstrating ability to work with sensitive information and meet strict deadlines

Admore Digital -MERN stack developer
Mar2021-Jan2021

- Built **responsive websites from scratch during COVID-19 pandemic**, while classes were suspended
- Translated **Figma designs** into **functional code** using HTML, CSS, JavaScript, and React, and used Firebase for backend services to create full-stack solutions for client projects
- Gained hands-on experience in web development while **balancing academic commitments**

Project

StyleHr- Lead Frontend Developer
(**React.js,Context Api,Hasura GraphQL,AntD,Webpack,React Query**)

- Led a **6-member** frontend team, implementing **Agile methodology** for efficient code management, deployment, code reviews, and task assignments, ensuring streamlined project execution
- **Collaborated with financial experts** to integrate crucial functionalities into our application, conducting in-depth research, documenting logic, and ensuring seamless implementation
- **Prepared**, **planned**, and **developed** a dynamic user management system with role-based permissions, offering customized access levels like **self, self** + **reportee,** and **reportees** to accommodate a diverse user base, resulting in reduced frequent client requests and **eliminating the need for frequent updates to the codebase**.
- Optimized application performance with API call optimization and various React methods, **achieving a 30% faster** page loads
- Implemented **GraphQL subscriptions** for real-time updates.

DIH - Full stack Developer
(**Nextjs,Redux,Node,MongoDB,Express,NetworkPaymentGateway,Framer Motion,nodemailer**)

- Created a website entirely from scratch, covering both frontend and backend development
- Build in a **micro service architecture**
- Integrated **Network Payment Gateway**

Project4MC - Frontend stack Developer
(**React,Context Api,Ag Grid**)

- Integrated the application with external services such as **ShipStation, Shopify**, and **Voyage One**
- Used **AG-Grid** for efficient data management, incorporating features like **infinite scrolling**, sorting, and filtering.
- Implemented **refresh token** functionality using **Axios interceptors** to maintain user sessions and enhance application security

Skills

- HTML5, CSS, JAVASCRIPT, BOOTSTRAP, TYPESCRIPT, TAILWIND, MATERIAL UI
- REACT, REDUX, CONTEXT API, GRAPHQL, WEBPACK, NEXTJS, REACT QUERY, JEST
- NODEJS, MONGODB, EXPRESS, RESTFUL API
- MICRO SERVICES,AGILE METHODOLODY
- GIT,AWS S3,CLOUDINARY,FRAMERMOTION
- RESPONSIVE/MOBILE DESIGN,ANTD,AG GRID

Education

BSc Computer Science -2019-2022
Calicut university
